Beginning on row 1 of Chart A, work rows back and forth reading the chart from right to left on the Right Side (odd numbered rows) and left to right on the Wrong Side (even numbered rows). At the beginning, or row 26, switch from cc1 to cc2. After row 57 cast off.

Crochet Instructions:
Chain 45 with complementing color (cc1). Lay main color yarn (mc) across working yarn. Ch 1 in cc1 to trap the mc in the stitch, so that it's ready to be carried along the top of the row.
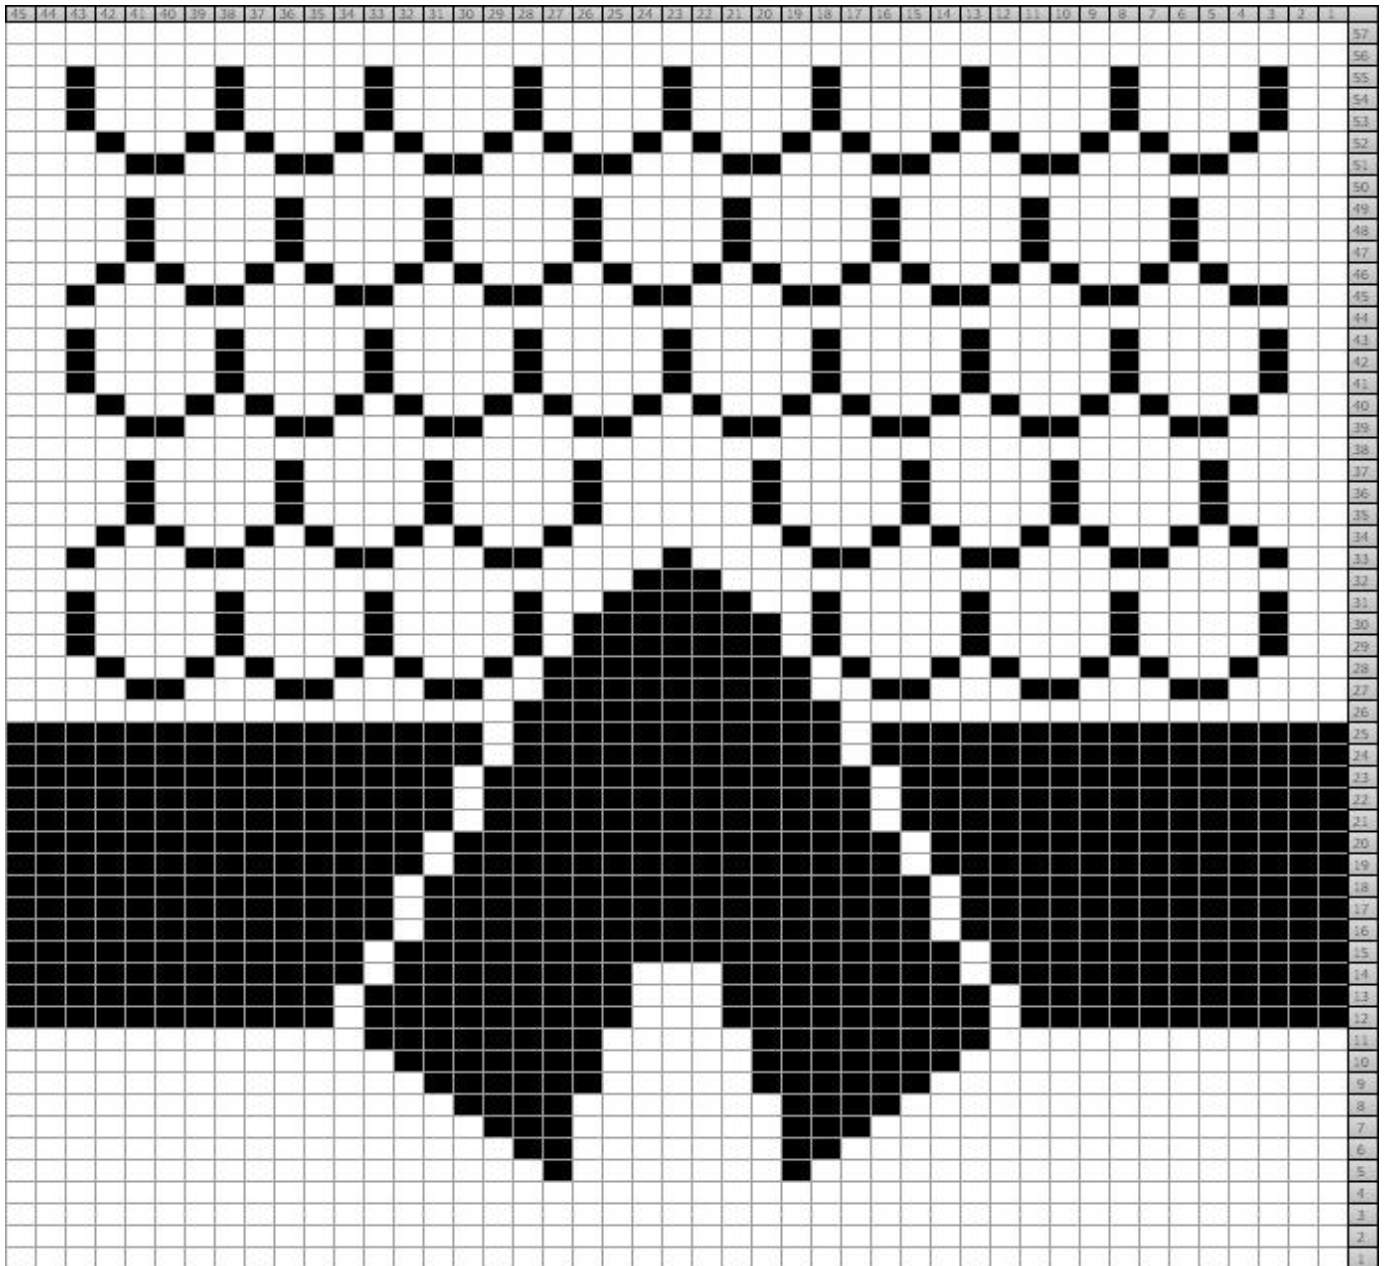

Row 1 (right side): This row corresponds to row 1 of Chart B. With cc1, sc in each ch across, working over the mc. = 45 sc

Turn, ch 1, and continue working the color chart back and forth until complete, making sure to sc over non-working yarn. In the last stitch of row 25, change from color cc1 to cc2.

Note: When changing from the working color to a new color, work the last stitch to be done in the working color until two loops remain on the hook. Draw new color through the two loops on hook. Continue to work the new color as normal.
